

JOVIE DICHOSO

BSIT STUDENT – WEB & MOBILE DEVELOPMENT

Sitio Pawa, Brgy Balete, Bacon, Sor. City | joviedichoso@yahoo.com | [Jovie Dichoso Github](#)

SUMMARY

A 4th-year BSIT student passionate about web design and mobile app development, with hands on experience in systems like event ticketing, POS, inventory, and a gamified fitness app. Skilled at blending creativity with problem solving and teamwork to build intuitive, engaging digital solutions.

SOFT SKILLS

- **Problem-Solving & Critical Thinking**
- **Creativity in UI/UX Design**
- **Team Collaboration & Communication**
- **Time Management & Organization**

TECHNICAL SKILLS

- **Web Development:** HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, Responsive Web Design
- **Frameworks & Libraries:** CodeIgniter 4, React Native
- **Backend & Database:** PHP, MySQL, Firebase
- **Mobile App Development:** Expo, React Native, Firebase integration (HakbangQuest)

PROJECTS

HakbangQuest (2025)

- A gamified fitness tracking mobile app built using React Native and Firebase.
- Tracks running, walking, cycling, and jogging activities with real-time progress updates.

Event Ticketing System (2024)

- Developed with CodeIgniter 4, Bootstrap, and MySQL.
- Features include event viewing, ticket purchasing, and e-ticket downloads.

POS & Inventory System (2024)

- A PHP/MySQL-based system designed for simple and efficient sales and inventory tracking.
- Focused on ease of use and clear interface.

E-Commerce Flower Shop – Surreal’s Cadeau (2024)

- Developed a flower shop e-commerce system with POS (Point of Sale) integration.
- Features include product catalog, order management, and event services.
- Built with CodeIgniter 4, Bootstrap, JavaScript, and MySQL for both online ordering and in-store transactions.

EDUCATION

Bachelor of Science in Information Technology
The Lewis College

Expected Graduation: 2026
